Here’s a simple way to help protect your family pets in the event of a fire or emergency. A company specializing in Pet Safety Alert (PSA) has created an eye catching Pet Alert Fire Rescue window decal that can be placed on windows to alert Firefighters or Police to save their pets inside in case of fire, floods or any immediate disaster. The vibrant bright red and white Pet Alert decals with a Dalmatian Dog mascot named “Rescue Rover” wearing a fireman hat say: “Pet Alert” Fire Rescue **(Please Save our Pets)** in big bold bright white letters. You fill in how many dogs, cats or birds you have and there is a additional blank boxed space on the bottom of the decal to write for *any other* pets or animals you may have like a rabbit, turtle, hamster, guinea pig or a even a iguana that needs to be saved!

Thousands of family pets perish each year in home fires and other disasters. Many pet deaths could be avoided if pet owners took the time to place “Rescue Rover” Pet Alert decals on windows. Having Pet Alert decals on windows, gives firefighters or police a better chance of informing them about how many and what type of pets that are inside when they arrive on the scene that need to be rescued in case of fire or disaster. Having Pet Alert decals on windows or sliding glass doors can mean the split second difference between life and death for the survival of your pet family member
